DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species and sub-species of the claimed invention:

Species:

- | | | | |
|---------------|------------------|----------------|---------------|
| 1. Figure 1; | 2. Figure 2a ; | 3. Figure 2b ; | 4. Figure 2c; |
| 5. Figure 2d; | 6. Figures 4a-c; | | |

Upon election of a single species listed above Applicant is required to elect one of the sub-species from **each** of the following **five** sub-species below:

Sub-Species 1: (further select one of)

- | | |
|---------------|---------------|
| A. Figure 3a; | B. Figure 3b; |
|---------------|---------------|

Sub-Species 2: (further select one of)

- | | | | |
|----------------|----------------|----------------|----------------|
| AA. Figure 5a; | BB. Figure 5b; | CC. Figure 5c; | DD. Figure 6 ; |
|----------------|----------------|----------------|----------------|

Sub-Species 3: (further select one of)

- | | | | |
|---------------|---------------|---------------|---------------|
| a. Figure 8a; | b. Figure 8b; | c. Figure 8c; | d. Figure 8d; |
| e. Figure 8e; | f. Figure 8f; | | |

Sub-Species 4: (further select one of)

- | | | | |
|----------------|----------------|----------------|----------------|
| aa. Figure 9a; | bb. Figure 9b; | cc. Figure 9c; | dd. Figure 9d; |
| ee. Figure 9e; | ff. Figure 9f; | | |

Art Unit: 3763

Sub-Species 5: (further select one of)

S. Figure 10a; T. Figure 10b; U. Figure 10c; V. Figure 10d;
W. Figure 10e; X. Figure 10f; Y. Figure 10g; Z. Figure 10h;

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species and one of each sub-species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species and each of the five subsequent sub-species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species and/or sub-species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species and the five indicated sub-species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species and/or sub-species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species and/or sub-species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
